### **Behavioral Competencies and Personal Attributes**

- Strong communication and listening skills
- Ability to follow procedures correctly
- Resilience and problem-solving aptitude
- Passionate about IT and eager to learn coding

### **Achievements**

- **Hackathon Winner (2024):** Led a team to develop a mobile ordering app for students using Kotlin and Firebase, recognized for innovative problem-solving and teamwork

### **Projects:**

#### **1 Students' management system (Java, MySQL).**

I've developed a Java-based application for managing student records with a focus on usability and insights. Features include adding, updating, and searching students, data validation, paginated views, and visual statistics through dynamic charts.

Built using Java Swing for the interface, JFreeChart for data visualization, and MySQL for database management.
